Dear Menlo Park School District Parents,

It is with great honor and enthusiasm that we will be servicing Menlo Park Schools for the 2016-2017 school year.

As a pioneer and leader in our industry, The LunchMaster has been providing food services for schools and districts throughout California for more than 20 years. **Our mission is simple: to prepare and deliver healthy, delicious and affordable home-cooked meals that kids love.**

Everything is made fresh daily in our nut-free, state-of-the-art facility located in San Carlos, CA. We use only the finest all natural and minimally processed ingredients, and purchase local and organic products based on market availability. We constantly taste-test and tweak our recipes to ensure the food is well-received, and we welcome new suggestions from the parent/child community.

At The LunchMaster, we care about the health and well-being of your child and we understand that adequate exercise and healthy eating habits positively impact your child's development and academic success. We work closely with our Registered Dietitian to ensure that all menu items meet or exceed nutritional guidelines, contain no trans-fat, have reduced sugars, and are low in sodium.

Highlights of our philosophy include:

- ✓ In-depth HACCP Plan and allergen management to ensure your child's food is safe
- ✓ Meat is all natural, hormone, steroid, nitrate and antibiotic free
- ✓ Our tortillas, breads, and pastas are always made with whole wheat, whole white wheat or whole grains.
- ✓ Organic fresh seasonal fruits and vegetables sourced straight from the farm, based on market availability
- ✓ 1% reduced fat milk is organic, hormone and rBST-free
- ✓ We offer up to 14 healthy meal options per day – including at least one vegetarian and one gluten free option
- ✓ We are proud to be Green! We're doing our part to reduce waste and not congest our landfills. Our entrée plates are all ecofriendly, biodegradable and food safe when heated.
- ✓ We always offer at least two new menu items each month and keep them in rotation throughout the year; this helps develop the various taste palates.
